Introduction

Complying development is a fast-track approval process for straightforward residential, commercial, and industrial development. Please consult with your registered certifier or the local council for advice on whether your development falls under complying development and discuss supporting document requirements before applying for a Complying Development Certificate (CDC). You may also access my Home Planner (<https://www.planningportal.nsw.gov.au/myhome-planner>) which is an online tool developed to assist people with determining which development pathway is suitable.

This guide outlines steps on how to submit a complying development certificate application via the NSW Planning Portal (the Portal). Please view the *How to submit a complying development certificate application for a pattern book design* step-by-step guide on the [NSW Planning Portal Support Hub](#) for assistance with applications that are using a pattern book design.

 **Note:** You will need a NSW Planning Portal account to create and submit your application. To register a new account, refer to the *How to register for a NSW Planning Portal* step-by-step guide.

Steps

 **Tip:** Mandatory fields are marked with an *asterisk. You must complete all mandatory fields on the application and any desired fields as required.

Step 1: Initiate an application

1. Log in to the NSW Planning Portal to display your dashboard.

14. Indicate whether you are using a NSW Housing Pattern Book design.

NSW Housing Pattern Book

The [NSW Housing Pattern Book](#) offers a collection of high-quality low and mid-rise housing designs to suit sites across NSW. By using a pattern book design, you may be able to access a new fast-track assessment pathway, reducing approval time by up to 50%.

Refer to your completed NSW Housing Design Verification Statement to answer the following questions.

Are you using a NSW Housing Pattern Book design for your development?*

Yes

No

If you select 'Yes', you will be prompted to enter your unique Pattern Identification Number.

What is your unique Pattern Identification Number?*

Your unique Pattern Identification can be found in the in the NSW Housing Design Verification Statement and confirmation email you received with your pattern download. For example, 1111-SD01, 1234-MH01, 1432-TH04001, 1324-RH01001.

15. Enter the site address of your development or Lot/Section number/Plan.

No

If you select 'Yes', follow the application prompts and complete the required fields.

 **Note:** To initiate a Section 68 application, the relevant council must have activated this service in the Portal. If so, a related Section 68 application will be created automatically after you submit your CDC application. You can access the draft application via the 'Related Cases' tab within the CDC application. If the council has not activated this service in the Portal, contact the council directly to apply.

29. Click 'Save and continue'.

Step 4: Enter nominated certifier details

30. Nominate the registered certifier to assess your application:

Step 5: Upload documents

There are certain documents that must be uploaded with your application. These are listed in the 'Required documents' table. Your certifier may also require additional documents to complete their assessment of your application. To avoid potential delays, we recommend contacting your nominated certifier to confirm all required documentation.

 **Note:** For a NSW Planning Pattern Book Design application, you must upload a 'Design Verification Statement'. When uploading this file, select the category 'Other Documents'.

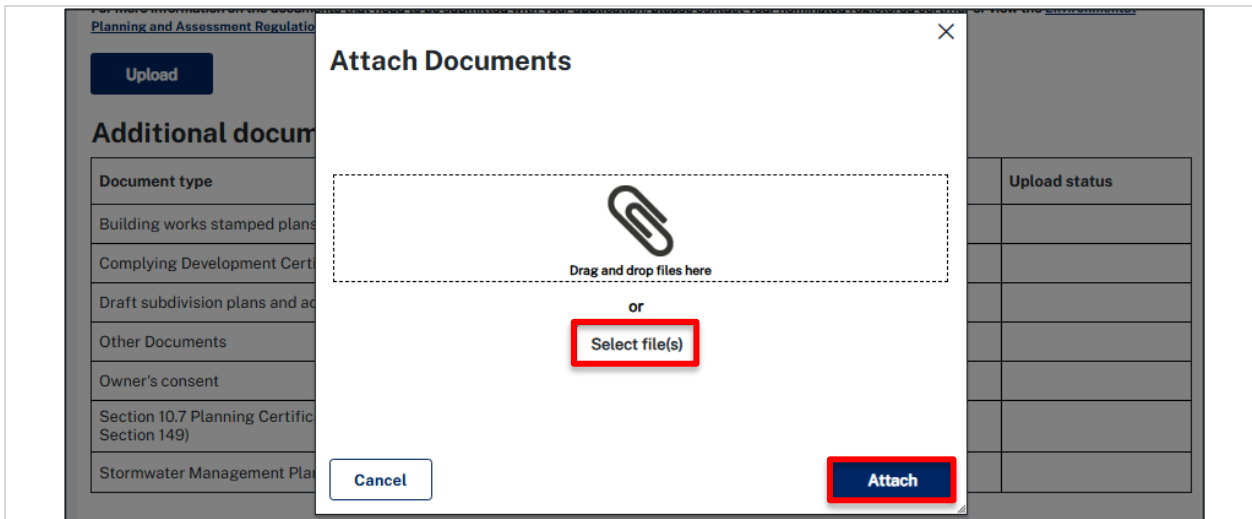

33. Click 'Upload'.

All uploaded files are scanned as a preventative measure, however we recommend you use appropriate and up-to-date antivirus software to protect your computer system.

- Click the 'Category' drop-down menu and select the appropriate category to correspond to each file.
- Click 'Attach'.

 **Note:** The name of the document has a maximum of 150 characters. If the name of your file exceeds this limit, you can change the document name to bring it within the 150-character limit.

35. Click 'Save and continue'.

 **Note:** Based on the details provided in your application, if a housing and productivity contribution is identified for the development, a message will display alerting you that a contributions case has been created.

The system will automatically generate a subcase with a CON prefix. You will then be prompted to enter further details within the CON case, upon clicking 'Save and continue' on this screen.

CDC applications that do not require a housing and productivity contribution to be paid will proceed to Step 6, 'Review and submit'.

Entering housing and productivity contribution details

Certain residential, commercial, and industrial developments may be subject to a housing and productivity contribution (HPC) on approval of the Complying Development Certificate (CDC) application. The need for a contribution will be determined based on the location of the development site and the types of development types specified in your CDC application. This section of the guide outlines the steps to complete the applicant inputs for the contributions case.

 **Note:** While we encourage applicants to provide information on proposed development for contributions, if this information is not understood, or available, you may submit your application without completing any further details. The certifier responsible for assessing your CDC application will finalise the necessary inputs for the housing and productivity contributions. It is the certifier's responsibility to ensure that the appropriate contribution amount is calculated and will be imposed as a condition of the consent, if approved.

1. Identify if a previous payment for contributions or a planning agreement applies.

Do any of the following apply: [What is this?](#)

- Previous payment made for state contributions
- State planning agreement applies to the development

 **Note:** Previous arrangements may impact contributions for a new development. Evidence will be necessary and can be uploaded. Each selected item will require supporting documents to be uploaded.

The development types and common application types entered in the Complying Development Certificate application will display. If the listed development(s) which require a contribution do not appear in the table, capture further contribution uses by following the steps below.

39. Click 'Submit CDC application'.

40. Select 'Close and home' to return to your dashboard.

Complying Development Certificate Reference number: CDC-10881 In progress

What happens next?

- Your application status will change from 'In progress' to 'Submitted'.
- The nominated certifier will receive a system-generated notification to advise them that they have received an application for their review.
- The nominated certifier will review your application and may request additional documentation to be provided. You will receive a system-generated email advising you of the request.
- The certifier will discuss the required fees with you and any Terms and Conditions. This will occur outside of the NSW Planning Portal.
- If you have initiated a related application such as a Section 10.7 Planning Certificate or Section 68 approval (applicable only in cases where the appropriate council is currently receiving these types of applications via the Portal), you must complete the relevant 'In Progress' applications available in your Active Work or from the 'Related Cases' tab within the Complying Development Certificate application. Where possible, content is pre-populated from this application.
- If a housing and productivity contribution applied to your application, the certifier will notify you of any contribution amounts payable.
- The nominated certifier will provide you with an outcome of their review via a system-generated notification. If they decline the application for assessment, you can use the 'Copy to new' function to re-submit the application to an alternative certifier.

- If you need to withdraw the application, you can do so by using the 'Withdraw' application functionality accessed via the 'Actions' button within the application.
